## **IMPORTANT INFORMATION REGARDING YOUR PRESCRIPTIONS**

In order to reduce plan costs and copay costs to members, we are **Effective March 1, 2021** implementing **Mandatory Mail Order** on select monthly maintenance drugs. You will now pay only **2 copayments on a 3 month** supply of mail ordered maintenance drugs. I have attached a list of the medications effected so you can see if you and/or your family are affected by this change.

If you find that you are indeed affected by this change, please simply contact **Wegman's Home Delivery Pharmacy at 1-800-586-6910 and select option 8**. Be sure to have available the list of your drugs that are on the list to be transitioned to mail order. Wegmans will collect your information and set you up for mail order. If you happen to have maintenance drugs that are subject to the mandatory mail order that are **NOT** with a Wegman's pharmacy, they will handle those for you as well on the call. Wegman's will reach out to your pharmacy and/or physician to make the change; you need only to advise Wegman's home delivery of that prescription.

Drugs that are **not** on the list will remain at your pharmacy to be filled as normal; nothing needs to be done with those prescriptions.

If you participate in Wegman's text messaging for prescription refills, and are in the transition of when you have contacted Wegman's Home Delivery and set-up your mail orders and happen to receive a refill text from Wegman's on that particular prescription, please read carefully to assure that you are responding to the right location. This will prevent you from inadvertently filling the prescription at the store. If you receive a store refill text, rather than responding you can call the Mail Order pharmacy to request that your refill is shipped if you are coming due and have not already requested the Rx to be shipped. If you do not want to have to call for refills as your prescription gets down to a two week supply, let Wegman's Home Delivery know you want automatic refills and you will no longer need to call each time.

Please be sure to contact Wegman's Home Delivery Pharmacy as soon as possible if you find that you have a prescription that is on the list so as to avoid any lapses in receiving your medication.

Wegman's in store pharmacies will work with you to make this a smooth transition if you run short of your medication while awaiting the delivery of your mail order.

Please do not hesitate to call the Funds office if you should have any questions.

# Home Delivery FAQ

## Frequently asked questions to help you get the most from your prescription plan

### Q: What's home delivery from Express Scripts Pharmacy <sup>SM</sup> ?

The Express Scripts Pharmacy provides an affordable way to obtain your long term drugs by allowing you to order up to a 90-day supply by mail. It's the most cost-effective way to fill prescriptions—and it helps you and your plan save money. Millions of people enjoy the convenience of home delivery and your plan recommends it. It's easy to get started, your medication is delivered right to your door and standard delivery is free. (Long-term drugs treat ongoing conditions, such as high blood pressure and high cholesterol.)

### Q: How long will it take to receive my home delivery medications?

For first-time orders, please allow for 10 to 14 days from the time Express Scripts receives your prescription. If we need to contact you or your doctor for information, delivery could take longer. (If the doctor can't be reached, you'll receive a letter or a phone call.) For your first order, we also advise you to get two signed prescriptions from your doctor:

- Prescription 1 is for an initial 30 day supply to be filled at your participating pharmacy
- Prescription 2 is for up to a 90-day supply with allowable refills, and should be sent to the Express Scripts Pharmacy.

Once we've processed your first order, subsequent new prescriptions will usually arrive within 8 days after we receive your prescription. Refills will usually arrive within 3 to 5 days from when the refill request is received.

### Q: What is the automatic refills program?

Your plan provides this service to help you avoid running out of your medication. After enrolling your long-term prescriptions in the program, Express Scripts will automatically calculate your medication usage and remaining days' supply. When it's time to refill your prescription, Express Scripts will fill and mail it to you automatically. We'll notify you 7 days before we begin processing your next refill. You have the option to change the next processing date or cancel the prescription from the automated refills program anytime before processing begins. There are 3 convenient ways to enroll in automatic refills:

- Log in at [express-scripts.com](http://express-scripts.com), and select "Automatic Refills" from the menu under Prescriptions. Select the prescriptions you'd like to have refilled automatically.
- When refilling a prescription, we ask if you want to enroll it in automatic refills. If you answer "yes," we will begin automatically refilling your prescription on all future refills.
- Call Member Services at 855.315.5220 and tell the patient care advocate you want to enroll in automatic refills.

Q: How do I start using the Express Scripts Pharmacy? You can choose any of these easy methods:

- ♦ **E-prescribing—the fastest way for us to receive your order.** Ask your doctor for a new prescription for up to a 90-day supply, plus refills for up to 1 year (if allowed). Then, ask the doctor to send it by e-prescribing to Express Scripts.
- ♦ **Fax.** Only doctors can fax prescriptions; the fax number is 800.837.0959
- ♦ **Express-scripts.com.** Log in and choose "Pharmacy Options" under the Prescriptions menu. The Express Scripts Pharmacy will contact your doctor for you to get a 90-day prescription. If you're a first time visitor to the website, please register with your member ID number.
- ♦ **Phone.** Call us at 855.315.5220. In most cases, we'll be able to contact your doctor to arrange for your first home delivery supply.

EXPRESS SCRIPTS®

**Q: How do I order refills if I don't enroll in the automatic refills program?**

Choose any of the following methods:

- Log in at [express-scripts.com](http://express-scripts.com), click "Add to Cart" for the medications you wish to order, then check out.
- Send us the refill request form included in your initial prescription package
- Call Member Services at 855.315.5220 to use our Interactive Voice Response (IVR) system. You may then choose to speak with a patient care advocate or use your touch-tone phone to enter your refill information.

**Q: How can I check the status of my order?**

Log in at [express-scripts.com](http://express-scripts.com) and select "Go to full order status" from the Recent Order Status section on the home page. Or you can call Member Services and use the automated system.

**Q: How can I find out how much my medication costs?**

Log in at [express-scripts.com](http://express-scripts.com), select "Price a Medication" from the Prescriptions menu and follow the instructions to enter your medication name. You can also call Member Services.

**Q: How do I pay for my home delivery prescriptions:**

All orders should include payment information to allow processing without delay. Orders may be paid with:

- Major credit card or debit card
- Electronic checking
- Flexible Spending Account (FSA) debit card (if applicable under your plan)
- MasterCard® or PayPal®
- Personal check or money order

**Q: How will I know if I have an outstanding balance?**

You'll receive an invoice with each home delivery order, as well as monthly statements with any unpaid balances. You can also check your balance by logging in at [express-scripts.com](http://express-scripts.com), selecting "Claims & Balances" from the Prescriptions menu and clicking the "Mail order payments" tab.

**Q: What's an account limit?**

Also called a floor limit, the account limit is the maximum outstanding balance you can have on your home delivery account. The account limit under your plan is \$150. If your unpaid balance exceeds \$150 and you order more prescriptions, Express Scripts will take these steps:

- The orders will be held for 36 hours while we try to call you to arrange payment.
- If payment is not received during this time, prescriptions for C2 controlled substances and refills for non C2 drugs are held for 7 days. If payment is not received by the 8th day, the order is cancelled. New prescriptions for all other drugs are held until the prescription expiration date. To have the order processed, you must contact Member Services and pay the balance. Unfilled prescriptions will be cancelled on the expiration date.

**Q: What is the Extended Payment Program (EPP)?**

EPP allows you to spread your home delivery prescription payments over three credit or debit card installments so you don't have to pay all at once.

There's no waiting—your medication will be shipped after the very first payment. When you enroll in EPP, it applies to every home delivery prescription for you and your covered dependents.

To enroll, log in at [express-scripts.com](http://express-scripts.com). Select "Payment Methods" from the Account menu, then click the "Edit Information" button. Under the Extended Payment Program tab, you can find the EPP terms and conditions. You can also call Member Services at 855.315.5220.

**Q: How can I find out how much my medication costs?**

Log in at [express-scripts.com](http://express-scripts.com), select "Price a Medication" from the Prescriptions menu and follow the instructions to enter your medication name. You can also call Member Services.

**EXPRESS SCRIPTS®**

**Q: Can I use manufacturers' coupons or cards on home delivery orders?**

Express Scripts doesn't accept coupons or cards. Manufacturer' copayment assistance is available for some specialty drugs through Accredo, an Express Scripts specialty pharmacy.

**Q: My medication needs refrigeration. How will it be mailed?**

The Express Scripts Pharmacy uses special packaging and coolant packs for handling and shipping refrigerated medications. These processes keep the temperature within the range approved in the product's labeling. We also adjust for current and forecasted climate conditions, as well as package destination area.

**Q: What if I have questions about my medications?**

As part of your plan—and at no cost to you—the specialist pharmacists from Express Scripts Therapeutic Resource Centers® (TRCs) focus on medication safety for patients with chronic and complex conditions. They're specially trained in medications to treat conditions including diabetes, heart disease, high cholesterol, high blood pressure, cancer, migraines, asthma, and hemophilia. Specialist pharmacists can answer your medication questions, help you avoid drug interactions and even help you and your doctor identify potential medication savings. To ask to speak with a specialist pharmacist, log in at [express-scripts.com](http://express-scripts.com), choose "FAQs & Contact Us" under the Help menu and select a link on the right to ask your question. You can also call Express Scripts at 855.315.5220.

**Q: What if I run out of or lose my medication before my home delivery order arrives?**

Immediately call Member Services at 855.315.5220. Express Scripts will advise you about the next steps.

**Q: What if my home delivery order doesn't arrive?**

Call Member Services at 855.315.5220. Express Scripts will advise you about the next steps.

**Q: What can I do on the Express Scripts website?**

By registering at [express-scripts.com](http://express-scripts.com), you can access your benefit at anytime. You can easily find available lower-cost medication options, order refills, check order status, view plan information, receive medication alerts, and more.

**Q: What can I do with the Express Scripts® mobile app?**

The app lets you manage your medications on the go. You can access most of the features available at [express-scripts.com](http://express-scripts.com), plus get instant access to your member ID card, set reminders for when to take your medications and more. Visit your mobile device's app store to search for "Express Scripts" and download the app for free.
